Profile

Ng Shi Xuan is a Singapore Member of Parliament and a business leader working at the intersection of industry development, sustainability, and public policy.

He represents Naval Base Division in Sembawang GRC and is also a director in a family business operating in the battery and energy solutions sector.

His work focuses on strengthening SME competitiveness, advancing the energy transition, and building resilient communities. In Parliament, he contributes to discussions on enterprise development, sustainability, and Singapore's economic transformation.

Public Leadership

As a Member of Parliament, Shi Xuan engages residents, businesses, and community partners to advance policies that support enterprise growth, innovation, and sustainability. His parliamentary contributions often draw from practical industry experience and ground engagement with residents.

Industry Leadership

Shi Xuan is a director of **Powermark Battery & Hardware Trading Pte Ltd**, a Singapore SME with more than three decades of experience supplying battery solutions across transport, industrial, and marine sectors.

The company is expanding into lithium battery systems and energy storage solutions as electrification and renewable energy adoption accelerate globally.

Areas of Interest

Energy transition and battery technologies

SME development and enterprise ecosystems

Sustainability and climate resilience

Education

Bachelor of Social Sciences (Economics), Second Class Honours (Upper Division), National University of Singapore, with a Minor in Political Science.

Technopreneurship Programme (Distinction), Tsinghua University School of Economics and Management, under the NUS Overseas Colleges Programme.

Personal

Shi Xuan is a father of three and a lifelong vegetarian. In his free time, he sings with his wife and reads with his children.
