This Bill seeks to amend the Healthcare Services Act 2020 (the Act) —

- (a) to introduce an approval framework for service delivery modes and specified services;
- (b) to remove the concept of a special licensable healthcare service;
- (c) to subject the appointment of Clinical Governance Officers to the approval of the Director-General of Health (the Director-General);
- (d) to restrict the use of names and terms associated with a speciality by a licensee unless a relevant specialist is employed or engaged by the licensee;
- (e) to regulate the advertisement of non-licensable healthcare services under the Act;
- (f) to impose restrictions on the use of the title “Doctor” in advertisements of healthcare services;
- (g) to redesignate the Director of Medical Services to the Director-General of Health; and
- (h) to make miscellaneous amendments for the better administration of the Act.

The Bill also makes consequential and related amendments to certain other Acts.

Clause 1 relates to the short title and commencement.

Clause 2 amends section 2(1) to introduce new definitions of “approved conveyance”, “approved permanent premises”, “approved specified service”, “permanent premises”, “remote provision”, “service delivery mode” and “specified service”, and to delete definitions of “licensed conveyance”, “licensed premises” and “special licensable healthcare service”. The definition of “Director” is also amended to “Director-General” as the designation of Director of Medical Services is amended to Director-General of Health.

Clause 3 repeals and re-enacts section 4 to amend the purpose of the Act, so that the regulation of service delivery modes and the advertisement of any healthcare service (including those not regulated under the Act) are also included.

Clause 4 repeals and re-enacts section 9 to prohibit licensees from providing a licensable healthcare service at any permanent premises, using any conveyance or by any other service delivery mode, unless it is approved for the provision of that licensable healthcare service.

Clause 5 inserts a new section 9A to empower the Minister to prescribe a service of a medical or healthcare nature that is part of a licensable healthcare service as a specified service for the licensable healthcare service.

The new section 9A also prohibits a licensee from providing a specified service for a licensable healthcare service despite holding a licence for the provision of the licensable healthcare service, unless the licensee is granted approval under the new section 11D (inserted by clause 8) for the provision of the specified service.

Clause 6 amends section 10 to update the particulars required for an application for a licence to include the prescribed details of applications for approval of service delivery modes and specified services.

Clause 7 amends section 11 to delete matters that are no longer relevant to the consideration of whether the Director-General should grant a licence, and to insert that whether an applicant has been granted or is likely to be granted approval for at least one permanent premises, conveyance or other service delivery mode as one of the relevant matters.

Clause 8 inserts new sections 11A to 11E.

The new section 11A provides for applications for approvals of permanent premises, conveyances and other service delivery modes. These must be made to the Director-General. The Director-General may refuse to consider an application that is incomplete or not made in accordance with the new section 11A.

The new section 11B deals with the matters that the Director-General has to consider when granting an approval for any permanent premises, conveyance or

other service delivery mode. The Director-General may, in granting the approval, impose conditions as well. An approval must not be granted to a person who is not a licensee. Upon the grant of the approval, the Director-General must amend the licence to state the approved permanent premises, conveyance or service delivery mode.

The new section 11C provides for applications for approvals of specified services. These must be made to the Director-General. The Director-General may refuse to consider an application for an approval of a specified service that is incomplete or not made in accordance with the new section 11C.

The new section 11D deals with the matters that the Director-General has to consider when granting an approval for a specified service. The Director-General may, in granting the approval, impose conditions as well. An approval must not be granted to a person who is not a licensee for the licensable healthcare service that the specified service is part of. Upon the grant of the approval, the Director-General must amend the licence to state the approved specified service.

The new section 11E provides that an approval granted under the new section 11B or 11D is valid for such period as may be specified in the approval unless —

- (a) earlier cancelled or suspended by regulatory action taken under the new section 20(3A);
- (b) earlier lapsed because the licensee ceases to hold a licence; or
- (c) earlier lapsed because the licensee stops providing the licensable healthcare service at the approved permanent premises, using the approved conveyance or by the service delivery mode that is approved, or stops providing the approved specified service, and the application to amend the licence under section 15 in relation to the permanent premises, conveyance, service delivery mode or specified service is approved by the Director-General.

Clause 9 amends section 12(1) to provide that a licence must state every approved permanent premises, approved conveyance, approved service delivery mode and approved specified service.

Clause 10 amends section 13(3) to provide that the Director-General may impose a licence condition prohibiting a licensee from using any approved permanent premises or approved conveyance for the provision of any service or carrying out of any activity even though that service or activity is incidental to the provision of the licensable healthcare service (and would have otherwise been permitted under section 30(1)(b)).

Clause 11 amends section 14 to provide that notice for the modification of a licence condition that applies to a class of licensees need not be given to a licensee

if the Director-General considers that the modification of the licence condition is necessary to prevent or mitigate immediate or imminent harm to patient safety.

Clause 12 amends section 15 to provide for the amendment of licences in relation to the stoppage of use of approved permanent premises, conveyances, service delivery modes or specified services. If the approved permanent premises, conveyance or service delivery mode to be stopped is the only approved mode for the provision of the licensable healthcare service to which a licence relates, the licensee is not to apply to amend the licence but must instead give notice to the Director-General under section 17.

Clause 13 amends section 17 to require a licensee to give the Director-General prior notice of the licensee's intention to wholly and permanently stop providing a licensable healthcare service or surrender the licence. Where a licensee only intends to cease providing a licensable healthcare service at, using or by one or more but not every approved permanent premises, conveyance or service delivery mode, the licensee is only required to apply to amend the licence under the amended section 15.

Clause 14 amends section 18(1) to provide for the lapsing of a licence on the date the last valid approval for any permanent premises, conveyance or other service delivery mode in respect of the licence is cancelled.

Clause 15 amends section 20 to provide that regulatory action may be taken if a licensee contravenes or fails to comply with any condition or requirement relating to any approved permanent premises, approved conveyance, approved service delivery mode or approved specified service.

Clause 16 amends section 21 to make consequential amendments arising from the amendments to section 20.

Clause 17 amends section 24 to provide that a licensee must not appoint a Clinical Governance Officer unless the Director-General has first approved the appointment. Section 24 is also amended to allow qualifications, skills and competencies to be prescribed for a Clinical Governance Officer in respect of a specified service that differ from those applicable to a Clinical Governance Officer for the licensable healthcare service.

Clause 18 replaces section 28 with a new provision to provide that in certain cases the employment, engagement or deployment of prescribed individuals working for prescribed licensees is to be subject to the Director-General's approval if those individuals have a prior conviction for a prescribed offence.

Clause 19 amends section 29 to expand the prohibition against using "Singapore" or "National" in any other language. The amended section 29 also prohibits the use of any term or name that is associated with a speciality if the licensee does not employ or engage a relevant specialist to practise in that speciality.

Clause 20 amends section 30 to make consequential amendments as the terms “licensed premises” and “licensed conveyance” are no longer used in the Act.

Clause 21 inserts a new Part heading above section 31 to designate section 31 and the new sections 31A, 31B and 31C as the new Part 3A relating to “Advertisement of healthcare services”.

Clause 22 inserts new sections 31A, 31B and 31C.

The new section 31A prohibits the advertisement of any skill or service relating to the treatment of any ailment, disease or condition, etc., affecting the human body such that it induces a person to seek the advice of or treatment from the advertiser or the person being advertised. However, this prohibition does not apply in relation to an advertisement of a licensable healthcare service by a licensee or a person acting on the authority of a licensee. This prohibition replicates what is currently provided for in section 4 of the Medicines (Advertisement and Sale) Act 1955.

The new section 31B imposes restrictions on the use of the title “Doctor” or any abbreviation or derivative of that title, in any language when a person advertises, or causes to be advertised, a healthcare service. Where this title is used in an advertisement in relation to a person who is not a practising medical practitioner or dentist, the person’s educational qualification in relation to the use of the title must be stated in the advertisement, and a disclaimer stating that the qualification is not a medical or dental qualification must be included. If the person has a medical or dental qualification but not a valid practising certificate, then the fact that the person does not hold a valid practising certificate must also be stated in the advertisement. These restrictions do not apply to specified healthcare professionals, who are regulated under their respective professional regulatory Acts.

The new section 31C provides that the Director-General may direct a person to rectify or withdraw an advertisement that does not comply with the requirements of the new section 31A or 31B.

Clause 23 amends section 48 to provide that —

- (a) any licensee aggrieved by the refusal of the Director-General to grant an approval under section 11B or 11D may appeal to the Minister;
- (b) any licensee aggrieved by the modification of a licence condition for which notice was not given (under the new section 14(5)) may appeal to the Minister against the Director-General’s decision to modify the licence condition; and
- (c) any person who is aggrieved by the Director-General’s direction under the new section 31C(1) to rectify or withdraw an advertisement may also appeal to the Minister.

Clause 24 amends section 57 to provide that regulations may be made to prescribe the service delivery modes or types of premises or conveyances that are not permitted for the provision of a licensable healthcare service or specified service, requirements specific to the provision of a licensable healthcare service by a service delivery mode and prerequisites for applying for an approval for a specified service. The amended section 57 also allows for regulations to be made regarding the form and manner of applications for approvals under the Act.

Clause 25 makes miscellaneous amendments in the Act to change the title of “Director” to “Director-General”.

Clause 26 makes a consequential amendment to section 25(1)(cb) of the Medical and Elderly Care Endowment Schemes Act 2000 as the terms “licensed premises” and “licensed conveyance” are no longer in use. The amended section 25 of that Act refers instead to the approvals given for permanent premises, conveyances and service delivery modes.

Clause 27 makes related amendments to the Medicines (Advertisement and Sale) Act 1955 to repeal section 4 of that Act, since it is replicated in the new section 31A.

Clause 28 makes consequential amendments to various Acts resulting from the redesignation of “Director of Medical Services” to “Director-General of Health”.

Clause 29 contains saving and transitional provisions. The Minister is further empowered to make regulations of a saving or transitional nature, within 2 years after the relevant amendment comes into force.
