Dear Hon Chairman and Members of the Singapore Parliamentary Select Committee on Fake News.

Thank you for your agreeing to be members in this very important select committee. Focused on the soliciting of considered views from the members of the public in Singapore - for very wise and careful study by the relevant officials. Before actual crafting, passing and enforcing of very fair, just, efficient and effective laws.

Laws which support and promote the promotion of verifiable truths - over harmful unintentional or intentional part-truths/-part-untruths or, even, total lies.

Instead of less than adequate laws which evil doers' and their lawyers will be quick to very silfully exploit.

To intimidate, gag, prevent and punish those who factually know the ways of such evil doers - beneath their guise of pretending to preserve and promote peace and harmony in the very societies they want to corrupt, weaken, deceive, conquer, subjugate, oppress and damn.

Therefore, this dire need for the right laws and processes which can very swiftly, accurately, justly and effectively enable the public and the relevant agencies and authorities - to very swiftly, accurately, justly, lawfully, cost-efficiently and cost-effectively expose and defeat such evil doers and their controllers, in and outside Singapore.

Via very well thought out multiple-tier procedures and processes - for very safe, just, swift and cost-effective deterring and addressing of such evil doers, early, by the lawful authorities - with the help of the Singaporean and non-Singaporean public, again, in and outside Singapore.

Because of this bedrock realization amidst the public - that falsehoods, untruths and lies (including genuine fake news) - must only harm persons and societies that are so deceived.

I am ready and would be happy to elaborate and substantiate in person, should you require me to do so.

Thank you.

Majulah Singapura !

Yours faithfully,
NGA Thio Ping
